

Here's a list of the main equipment I use on a day to day basis. Naturally anything mechanical/electronic can fail, so we rely on extensive backup equipment to seamlessly carry on in the unlikely event of failure. That, and good insurance, help us sleep well at night :)

Nikon D3 Digital SLR
Nikon D300 Digital SLR with grip
Nikon D200 Digital SLR with grip
Nikon D70 Digital SLR

Nikkor 24-70mm f2.8 lens
Nikkor 17-55mm f2.8 lens x 2
Nikkor 70-200mm f2.8 lens
Nikkor 50mm f1.4 and f1.8 lenses
Nikkor 10.5mm f2.8 fisheye (yum!)

Sigma 30mm f1.4 lens
Sigma 15mm f2.8 semi-fisheye
Sigma 28-70mm f2.8 lens

Nikon SB800 flashgun x 2

Sandisk Extreme Ultra III 2Gb and 4Gb Compact Flash cards (lots)

Tenba, Pelican, Thinktankphoto and Billingham bags and cases.

Elinchrom Studio Flash and accessories.

Back at the Batcave I rely on a Mac Pro Dual Quad Core, a G4 1.25Ghz desktop and a Macbookpro Dual Core laptop as the mainstay of my digital processing workstation. We have in excess of 2 terabytes of storage on SATA G-Tech drives and also backup the backups to a comprehensive DVD filing system.

Software includes Adobe Photoshop CS3, Adobe Lightroom, Proselect, iView Media Pro, occasionally YSI, PG3, iPhoto/iWeb/iMovie, Showitweb and Dreamweaver.
